2026 – now

Interface Designer, part-time · Rabotyagi Studio

A product design studio working with Yandex, VK, HeadHunter and Avito. The art director brings me in for concepts and code.

- Stepicon 2026, Stepik's conference: the landing page, from concept to front-end code.
- Moneta.ru, B2B payments: concepts for the homepage and the journal. The animations and illustrations are mine.

Senior Interface Designer · Salt and Pepper, with Cedro

- Site for film director Artem Shcherbakov: concept and all screens. Site of the Day on Awwwards, FWA and CSSDA.
