Experience

2026 – now

Senior Product Designer · Fintech, billing team (NDA) · remote

Payment and billing flows for a B2C product: research, A/B tests, motion, and prototypes in code before ideas reach the backlog.

2026 – now

Senior Interface Designer, part-time · Rabotyagi Studio

A product design studio working with Yandex, VK, HeadHunter and Avito. I'm brought in for concepts and code.

- Yandex Cloud at Scale 2026: a touchscreen booth game. I wrote the front-end in a week and a half; it shipped with minor changes.
- Stepicon 2026 by Stepik: the landing page, from concept to code.
- Moneta.ru: homepage and journal concepts with my animations.

2024 – 2026

Senior Interface Designer · Cedro Agency

Startups, MVPs and e-commerce. Discovery on every project.

- Slotex, ex-IKEA plant: outdated sites merged into one B2B/B2C store. The concept and most of the design are mine; I ran usability tests and worked directly with the client's decision-makers.
- Urbantiger (BTK Group): online store redesign, leading two junior designers and an illustrator. The client reported 2× conversion.
- Chums Messenger, as design lead: Web3 messenger with 32k+ wallets. Desktop rebuild cut attaching a file from 6 steps to 1.
- Artem Shcherbakov, film director: concept and all screens of his site, with Salt and Pepper.
- HSE University Online, with Salt and Pepper: platform concept, then the full site with a junior I mentored.

2024 – 2025 **Product Designer** · Meama, in-house design studio

Meama, coffee brand: acquired Cedro's team; part of us became its in-house studio. App concepts, live-product audits, marketing design.

2023 – 2024 **Interface Designer** · Cedro Agency

Junior to mid-level in a year: e-commerce and fintech startups.

- Only Me, eco-fur brand: the MVP store shipped in four months.
- Lendly Invest, crowdlending: the investment flow split into steps, time to complete nearly halved.

2022 – 2024 **Freelance Graphic Designer** · posters, key visuals and print

2019 – 2022 **Marketing Specialist** · Google, Yandex and Meta ads, social media

Projects

2026 **Rally**, an English-practice app: concept, design and Swift code, solo.

2026 **Portfolio site**: designed and coded in Next.js, with a 3D head.

Awards

2026 **Awwwards Site of the Day**, FWA of the Day, CSSDA Website of the Day, G8 bronze for Artem Shcherbakov's site.

2025 **2nd place in Yandex's Alice × Kaiference design battle**, ahead of every in-house team.
