Experience

2026 – now **Senior Product Designer** · Payments team (NDA) · remote

Payment and checkout flows for a B2C product. Prototypes in code, A/B tests judged on revenue, not just conversion.

- Key terms moved onto the payment screen: support chats from it fell by over half, conversion held.
- Compact payment methods, no banner: a cleaner first screen and no drop in conversion. Rolling out.
- Won on conversion, lost on revenue: my variant brought in smaller average payments, so it didn't ship.

2026 – now **Senior Interface Designer, part-time** · Rabotyagi Studio

A product design studio for Yandex, VK, HeadHunter and Avito; I'm brought in for concepts and code.

- Yandex Cloud at Scale 2026: booth game; my design and front end in 1.5 weeks, shipped with minor changes.
- Stepicon 2026 by Stepik: landing page, concept to code.
- Moneta.ru: animated homepage and journal concepts.

2025 **Product Design Lead** · Chums, via Cedro Agency

- Chums, Web3 messenger: 32k+ wallets. Led design for a year and mentored a junior designer; the desktop rebuild cut attaching a file from 6 steps to 1.

2024 – 2026 **Senior Interface Designer** · Cedro Agency
2023 – 2024 **Interface Designer**

Startups and MVPs, with discovery on every project.

- Urbantiger (BTK Group): 28-page store redesign with two junior designers. The client reported 2× conversion.
- Lendly Invest, crowdlending: marketplace, investor analytics and an investment flow split into steps.
- Slotex, ex-IKEA plant: old sites merged into one B2B/B2C store. My concept and most of the design; I ran usability tests and worked directly with decision-makers.

2024 – 2025 **Product Designer** · Meama

- Meama, coffee brand: acquired our Cedro team as its in-house studio. App concepts and product audits.

2022 – 2024 **Freelance Graphic Designer** · posters, key visuals, print

2019 – 2022 **Marketing Specialist** · Google, Yandex and Meta ads
