

Timur Nishanov

Senior product designer who builds in code. Based in Bangkok.

timurdesigner.vercel.app · timanemetis@gmail.com

LinkedIn · Telegram · X · GitHub

I design complex flows and visuals for B2C products in fintech, e-commerce and Web3. Highlights: 2× conversion after a store redesign, my front-end for a Yandex Cloud booth game, an Awwwards Site of the Day. Open to product roles worldwide.

Experience

2026 – now

Senior Product Designer · Billing team (NDA) · remote

Deposit and withdrawal flows for a B2C product: payment methods, first-deposit conversion, retention. Variants on our design system, prototypes in code, A/B tests judged on revenue, not just conversion.

2026 – now

Senior Interface Designer, part-time · Rabotyagi Studio

A product design studio working with Yandex, VK, HeadHunter and Avito. I'm brought in for concepts and code.

- Yandex Cloud at Scale 2026: a touchscreen booth game. I wrote the front-end in a week and a half; it shipped with minor changes.
- Stepicon 2026 by Stepik: the landing page, from concept to code.
- Moneta.ru: homepage and journal concepts with my animations.

2024 – 2026
2023 – 2024

Senior Interface Designer · Cedro Agency
Interface Designer · junior to mid-level in a year

Startups, MVPs, e-commerce and fintech. Discovery on every project.

- Urbantiger (BTK Group): online store redesign, leading two junior designers and an illustrator. The client reported 2× conversion.
- Chums Messenger, as design lead: Web3 messenger with 32k+ wallets. Desktop rebuild cut attaching a file from 6 steps to 1.
- Slotex, ex-IKEA plant: outdated sites merged into one B2B/B2C store. The concept and most of the design are mine; I ran usability tests and worked directly with the client's decision-makers.
- Lendly Invest, crowdlending: the investment flow split into steps, time to complete nearly halved.
- HSE University Online, with Salt and Pepper: platform concept, then the full site with a junior I mentored.

- Only Me, eco-fur brand: the MVP store shipped in four months.
- Artem Shcherbakov, film director: concept and all screens of his site, with Salt and Pepper.
- Meama, coffee brand: acquired Cedro's team; part of us became its in-house studio. Product Designer there in 2024–2025: app concepts, live-product audits, marketing design.

2022 – 2024 **Freelance Graphic Designer** · posters, key visuals and print

2019 – 2022 **Marketing Specialist** · Google, Yandex and Meta ads, social media

Projects

2026 **Rally**, an English-practice app: concept, design and Swift code, solo.

2026 **Portfolio site:** designed and coded in Next.js, with a 3D head.

Awards

2026 **Awwwards Site of the Day**, FWA of the Day, CSSDA Website of the Day, G8 bronze for Artem Shcherbakov's site.

2025 **2nd place in Yandex's Alice × Kaiference design battle**, ahead of every in-house team.

2024 **Runet Rating**, bronze in apparel for the Only Me store.

Skills

Design	User flows, interface design, design systems, prototyping, visual design, concepts, motion, illustration
